EMAIL selena.lewis@steptoe-johnson.com
EDUCATION B.S. West Virginia University

Selena Lewis is an Environmental Consultant with a B.S. in Mining Engineering and has experience in both underground mining operations and coal preparation plants, working primarily with maintaining safety measures and ensuring efficient day-to-day operations. She has worked with environmental departments and consulting companies focusing on stream and pond sampling to maintain compliance with current permits and for future water permit applications. She is skilled in technical writing, including project reports and permit drafts, R13 air permit application preparations (general and individual), drafting in Computer Aided Design (CAD) programs, as well as the WVDEP's Document Management Search and Electronic Submission Systems.
